

BASLER TURBO CONVERSIONS, LLC

Aircraft Electrician

Founded in 1990, Basler Turbo Conversions, LLC is headquartered in Oshkosh, Wisconsin. Our BT-67 aircraft is flown in almost every corner of the world. We offer a clean, safe working environment in our 75,000 square foot state-of-the-art facility, and competitive pay with a full benefits package.

This entry-level opportunity requires 2 years of manufacturing/maintenance experience. Duties will consist of assisting the mechanic on the aircraft. Must be familiar with air tools, hand tools & must have a strong mechanical aptitude. This is a great opportunity to learn a skilled trade with the opportunity to advance as you become more skilled in the roll.

Typical tasks to be performed:

- Carry out electrical work in accordance with defined processes and specs, engineering data, and installation drawings including but not limited to:
- Troubleshooting of electrical systems
- Fabrication of harnesses and connector termination
- Pinning and de-pinning of connector contacts
- Installation of wiring into aircraft components
- Replacement of faulty wiring harnesses
- Installation of customer requested systems

Requirements:

- High School graduate/GED. Two (2) years related work experience; or two (2) years of accredited schooling in aviation electronics.
- Ability to read and interpret basic blueprints and schematic diagrams.
- FCC and or NCATT preferred
- Experience with use of wiring diagrams, block diagrams, schematics and engineering drawings that define electrical systems
- Technical/mechanical background such as A&P mechanic, automotive mechanic, or comparable experience

BASLER TURBO CONVERSIONS, LLC

- Ability to work in a fast-paced environment
- Work experience that demonstrates longevity and commitment
- Reliability and ability to work independently and/or with a team in accordance with drawings and work instructions

Physical Abilities:

This position requires you to perform a variety of physical activities such as:

- Climbing, standing, stooping, bending, kneeling, sitting, working overhead, extensive walking, working in tight/confined spaces and lifting up to 50 pounds
- Handling hazardous material in performance of assigned duties
- Be able to use Personal Protective Equipment (e.g., respirators, safety glasses, safety shoes, etc.)
- This description has been designed to indicate the general nature and level of work performed by an employee within this position; additional tasks and responsibilities may be assigned as appropriate
